"playing the music you grew up with"

ad.Premium

Bay FM's **ad.Premium** package is designed for high impact, high frequency enforcement of your message.

It will create effective awareness of your business in the local marketplace and embed your business or brand name and benefits in the listener's mind, so that when they're ready to make a buying decision they already know you and your product:

Radio is word of mouth

Radio advertising is like word of mouth because it comes from "a friend", the listener's station.

Radio is Brand Building

Positioning a brand through a concept or an attitude is easy to achieve personally, frequently, and economically on radio.

Radio can also create perceived needs and wants, thus expanding your potential customer base.

When your potential customers identify a need or a want, you will be a first point of contact. They feel they already know who you are, what you do and the benefits.
