Advance your advertising message to greater heights with Bay FM's **ad.Vance** 6 month package...

Consistency is essential for creating share of mind so that when the consumer is ready to purchase, your company is positioned "top of mind" ready for the buying decision. So for your advertising, you need to "be in it for the long run".

In it for the Long Run

WHO WILL YOUR POTENTIAL CUSTOMERS TURN TO?

Good advertising is about consistency and simplicity

Whether it's a car, plumbing service, new computer, furniture or home improvements the decision to buy is made as a consequence of a need. When that need arises, which company will your potential customer turn to, to make their purchase?

They'll go to the first person they think of! Logically, they will turn to the company that they know – this is top of mind, or being "positioned" in the mind of the consumer so they turn to you to fulfil their required need.

Of all the mass media, Radio is best placed to allow consistent, cost efficient advertising to achieve this top of mind status for your business.
